BALUCHISTAN REAL TIME SCHOOL MONITORING SYSTEM

DIVISIONAL REPORT CARD

Based on findings of 57,158 monitoring visits to 12,925 schools from Jan 2018 to May 2019 in Balochistan

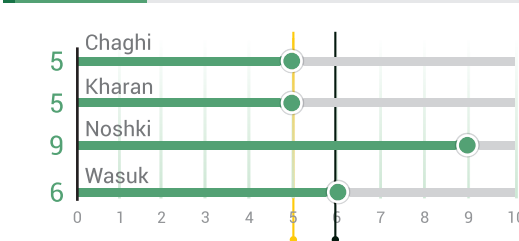

BALUCHISTAN SUMMARY OF RESULTS JAN 2018-MAY 2019

EMIS is technically supported by Innovative Development Organization (IDO).
www.emis.gob.pk

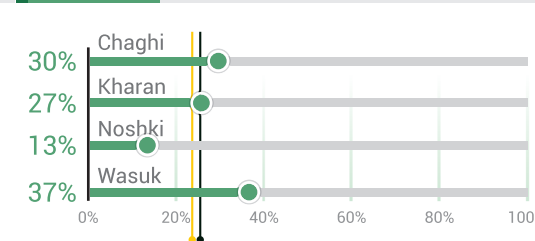

Schools monitored by division and district (%)

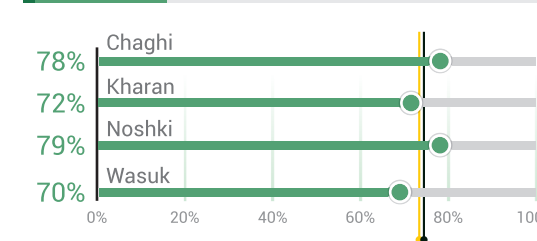

School monitoring frequency by division and district (Average #)

Times schools reported closed on RTSM visit by division and district (%)

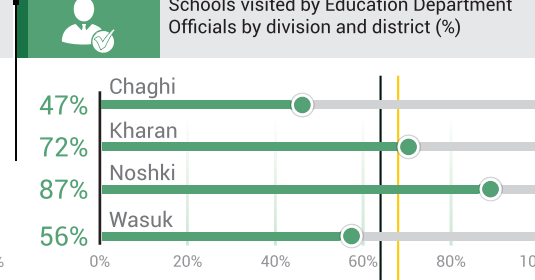

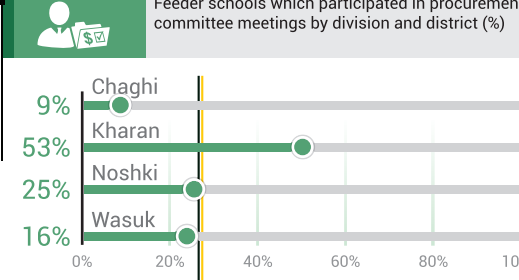

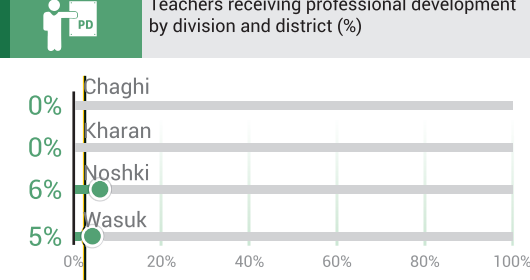

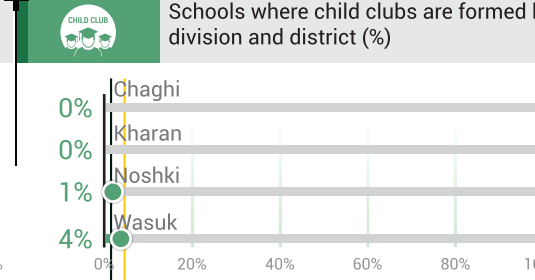

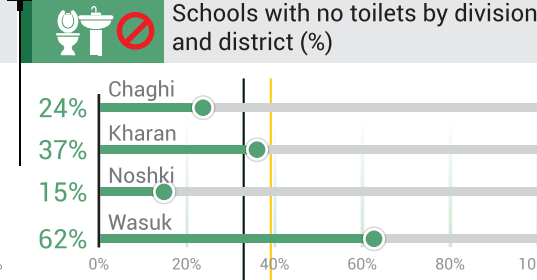

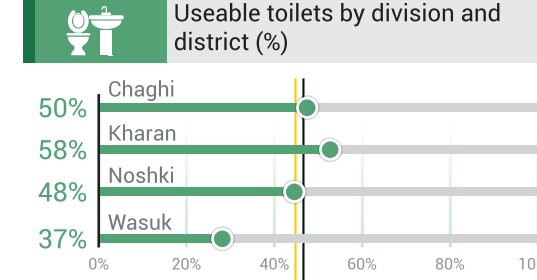

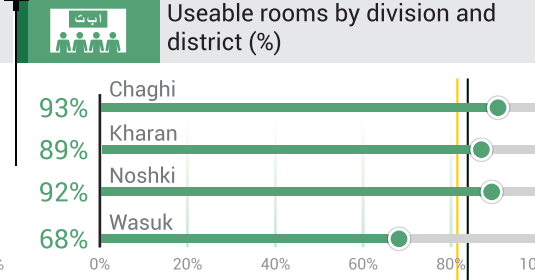

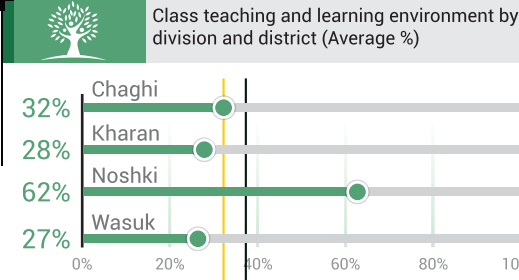

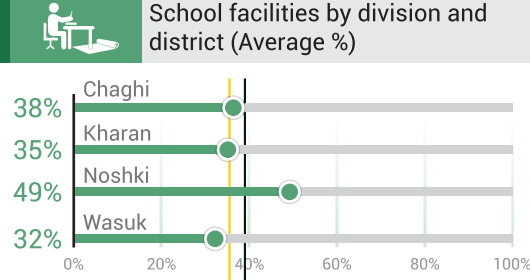

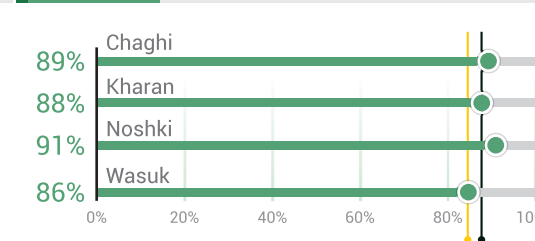

Student attendance by division and district (%)

Teaching staff attendance by division and district (%)

Non-teaching staff attendance by division and district (%)

How to Read the Booklet

Charts

The title of the chart describes the indicator and unit(s) of disaggregation. The horizontal bars show performance of individual districts, the black vertical bar shows average value by division whereas the yellow vertical bar shows the average value by province. Level and gender wise details in each chart represent values by division.

Description

Provides details on indicator and its composition matched against the column heading number.

Table

The table shows cluster level performance of schools. Column headings describe the indicator. Read description section for details of column headings.

Distinction awarded to clusters where:

- No schools (0%) were found closed at the time of visit
- Average attendance of students, teaching and non-teaching staff is 80% or above
- Overall average of facilities, teaching and learning environment, useable rooms and toilets is 70% or above

WASHUK

Note: The findings of RTSM visits represent the performance of schools as noticed at the time of visit and may not be representative of routine school functions.

- Unique identification number of cluster head schools in ascending order
- Shows the percentage of times out of total monitoring visits on which schools were found closed.
- Student/teaching staff and non teaching staff attendance value is a sum of the total number of students/staff monitored on all visits.
- Percentage of school facilities is a composite average of availability of safe drinking water, chairs and table for teachers, mats and desks for students and blackboard and chalks in classes.
- Percentage of teaching and learning environment in school is a composite average of students having textbook, availability of syllabus in class and number of students wearing uniform.
- Shows usability of available rooms to carry out teaching and learning processes and usability of available toilets to fulfill sanitation and safe hygiene needs of students. The monitoring tools employed here are based on observation of the monitor and interview with school/class teacher(s)
- Refers to the number of teachers in cluster and feeder schools who are participating in Continuous Professional Development (CPD)* training.
- Refers to the participation of staff of feeder schools in procurement committee meetings convened by cluster head schools based on information provided by feeder schools.
- Refers to the percentage of schools in cluster visited by Education Field Officials (EFO)* during the reporting period.
